

# Waste Generator Labels

As your waste management partner, Stericycle provides color-specific labels with key information used to support proper management after collection. Your waste labels will include:

- 1 Waste generator name, address, and phone as well as your Stericycle customer number
- 2 Waste transporter name, address, and phone – your Stericycle location
- 3 Stericycle-specific QR code allows for waste and container tracking (for internal use only)
- 4 Space to enter waste pick-up date

## Container examples and label positioning

Actual container and corrugated box may vary per your location and waste stream.

## Label color indicates the type of waste in the container

Chemo or Path

- All staff should be fully knowledgeable about what types of waste your facility generates and where and how they should dispose of it.
- Display this and other Stericycle-provided posters near waste containers, and share during training sessions to help maintain an efficient and compliant waste program.

## How do I order more labels?

Ask your Stericycle Service Technician or Driver. You can also contact Customer Experience at 866-783-7422.
