

Convenient. Comprehensive. Cost-Effective. All in One.

Start achieving greater outcomes today.

SharpsRx Pro™ consolidates sharps and non-hazardous pharmaceutical waste streams into one reusable container at the point of patient care—creating efficiencies that drive improved outcomes for all.

Protect What Matters Most

Support the safety of people and the planet with a one-container solution that offers efficient disposal of sharps and non-hazardous pharmaceutical waste at the point of administration.

Enhance Efficiencies To Elevate Your Quality Of Care

By streamlining sharps and non-hazardous pharmaceutical waste disposal, you give valuable time back to nursing staff to focus on quality patient care.

Keep Pharmaceuticals Out Of Waterways

Our extensive range of service and container options provides effective sharps and non-hazardous pharmaceutical waste disposal, supporting practices that help keep contamination out of community waterways.

385K sharps-related injuries occur annually ^[1]

22% of sharps injuries occur during or after sharps disposal ^[1]

~85% of hospital drug waste is non-hazardous pharmaceutical waste ^[2]

~95% of the time, this type of waste is generated at the bedside ^[2]

Creating Your SharpsRx Pro™ Solution

SharpsRx Pro™ includes an extensive range of service and container options. We partner with you to design, implement, and deliver the total solution right for your organization. As state and location regulations vary, your Stericycle account representative will align the SharpsRx Pro™ service option available in your area.

-  **ANALYZE**
We'll evaluate your current waste program—identifying opportunities to increase safety, improve compliance, and optimize overall efficiency.
-  **DESIGN**
Based on our analysis, we'll recommend the best solution to address your waste management program goals as well as each department's and team location's needs.
-  **IMPLEMENT**
Our team supports your staff in preparing for, implementing, and managing your waste program.
-  **MONITOR**
Regularly scheduled program reviews identify opportunities to contain costs, help reduce inefficiencies, and minimize environmental impact.

Mitigate Risk And Boost Efficiency With One Simple Solution

IMPROVE EFFICIENCY

- Streamline waste disposal by combining sharps and most pharmaceutical waste within one convenient container.
- Save nurses time by alleviating the need to leave the patient room to dispose of non-hazardous pharmaceutical waste.
- Drive more positive patient outcomes by enabling nurses to have more time at the patient's bedside.

REDUCE NEEDLESTICK INJURIES

- Enhance pharmaceutical waste segregation, awareness and processes, limiting staff exposure to hazardous drug waste.
- Help reduce the risk of staff needlestick injuries resulting from overfull containers by switching to proactive container exchange performed by Stericycle technicians.
- Containers have OSHA-compliant engineering and labeling, with FDA 510K clearance.
- Utilize Stericycle's industry-leading regulatory expertise to help train and support your staff on federal and local regulations.

SAFEGUARD YOUR COMMUNITY

- Reduce the risk of medication diversion with disposal of non-hazardous pharmaceuticals at the point of administration.
- Mitigate pharmaceutical contamination of the environment, community waterways, and potentially drinking water.
- Reduce your carbon footprint with reusable containers that each divert up to 600 disposable containers from landfills.

WORK WITH A TRUSTED PARTNER

- Experience comprehensive onboarding and seamless installation that ensures minimal disruption of normal hospital routines and patient care.
- Receive support from a well-established nationwide network with complete and verifiable chain of custody and real-time tracking.
- Realize the benefits of flexible scheduling and flat, monthly fees for easy budgeting.

Experience the Stericycle Difference

Our total solution approach delivers tangible results.

Improve Safety

- Comprehensive onboarding and resources
- For full-service customers, proactive container management by trained Stericycle Technicians
- Proven container design helps decrease needlestick injuries

Drive Efficiency

- Remove inventory management
- Streamline processes and reporting across sites
- Leverage Stericycle resources to reinforce waste segregation, which helps align overall waste cost

Achieve Sustainability Targets

- Proprietary tools and unmatched industry experience to design waste solutions that help healthcare organizations minimize environmental impact

Generate Cost Savings

- For full-service customers, the flat fee structure assists with budgetary projections
- Stericycle is dedicated to the successful implementation of your SharpsRx Pro™ waste solution and committed to ongoing perpetual improvement via custom business reviews and program analytics
