

Our Company At A Glance

Stericycle is a global business-to-business services company. We provide an array of highly specialized solutions serving healthcare organizations and commercial businesses of every size. Since our founding in 1989, we have grown from a small start-up in medical waste management into a leader across a range of increasingly complex and highly regulated arenas, such as:

- Regulated waste management and compliance solutions
- Secure information destruction
- Brand protection solutions
- Patient engagement solutions

Every organization today must comply with increasingly strict regulatory guidelines and quality controls in the delivery of their core businesses. Large or small, businesses can't always do it on their own. They seek out Stericycle to help them. We have the expertise and passion to take on many complicated and often behind-the-scenes services our clients don't always know how to do well but that ultimately make their businesses better.

Our Purpose:

To help our customers fulfill their promises by providing solutions that protect people and brands, promote health and safeguard the environment.
